Award given by the CEV Fonoaudiologia Council for the best software.

## CERTIFICATES

- **Google UX Design Certificate** - 03 / 2021

Testing UX design processes: creating empathy with users, defining problem points, creating solutions, wireframes and prototypes, validated in addition to design, their navigability and usability.

- **W3Cx's Front-End Web Developer Professional Certificate** - 08 / 2018

Issued by the W3C (World Wide Web Consortium), creator of Web standards, on source code quality concepts and guidelines for web applications.

- **C1 Advanced - EF SET Certificate™** - 05 / 2018

The C1 level of English is the 5th level of English in the Common European Framework of Reference for Languages (CEFR). This level can be described as "Advanced English".

## **EDUCATION**

### **Bachelor of Computer Science**

University Paulista

2018 - 2022

## **EXPERIENCE**

### **Full Stack Developer & Designer UI / UX - ONDIZER - 12 / 2020**

Developed the first social live e-commerce in Latin America using Photoshop, Illustrator and Adobe XD to create the interfaces. Front-End developed with HTML, CSS, Bootstrap, JavaScript and Laravel framework, versioning the entire system in Git.

### **Front-End Developer & Designer UX - Kombi - 06 / 2019**

Developed several e-Commerces services, including Blogs, Landing Pages. Applied UI concepts in lead capture and UX to deliver the best that the Web has to offer on any platform using technologies such as HTML, CSS, SASS, JavaScript, Bootstrap, jQuery and PHP.

### **Front-End Developer - Communicar - 06 / 2018**

Developed One Page applications with the most modern technologies in the market going beyond HTML, CSS, JavaScript and Bootstrap such as the Vue.js framework and Vuetify styling library.

### **Intern - Game Developer - Communicar - 01 / 2018**

Developed independent gamification projects within the company. From its logical part in JavaScript to the production of videos and promotional posts, using After Effects, Photoshop and Illustrator, for its dissemination within the multinational platform.

### **Freelancer Full-stack - 03 / 2017**

I carried out projects for countless clients, understanding each need and elaborating a development flow using the best technologies available in the market such as Laravel, React.js, Vue.js, Node, MySQL and versioning all applications with Git. Exploring more and more new development tools that optimized my clients' systems.
